Education

Zhejiang University, College of Computer Science and Technology, Ph.D. Student 2024.09 - Present
Zhejiang University, School of Software Technology, M.Eng. Student, Artificial Intelligence 2022.09 - 2024.06
Zhejiang Sci-Tech University, Qixin School, B.Eng. in Intelligent Science and Technology 2018.09 - 2022.06

Research Interests and Technical Skills

- **Research Interests:** Parameter-efficient fine-tuning and model merging for large models, model optimization, token compression, computer vision
- **Technical Skills:** Python, C++, PyTorch, OpenCV, Linux, LaTeX, Git

Research and Project Experience

Multi-Task LoRA Merging and Negative Module Pruning, First Author 2025 - 2026

- Introduced negative modules to explain performance degradation in multi-task LoRA merging, and developed an evolutionary pruning method to remove harmful module combinations for more stable merged models.
- Led problem formulation, method design, implementation, ablation analysis, and paper writing. Accepted by ACL 2026.

State Defect Analysis and Model Repair for Vision Mamba, Co-author 2024

- Analyzed hidden-state defects in Vision Mamba through predictive relevance experiments, and validated targeted model repair strategies. Published at NeurIPS 2024.

AFAC 2023 Financial Intelligence Challenge, Team Leader 2023

- Built a DINO-based tampered-region detection pipeline for financial document images, integrating task-specific data augmentation, contrastive denoising training, and model weight merging. Ranked 3rd.

Intelligent Image-Based Defect Recognition for Hydropower Dams, Project Lead 2022 - 2024

- Led the design of an image-based dam inspection system for automatic defect detection, localization, size estimation, panorama stitching, and visualization, achieving 96% crack detection accuracy.
- Published a related paper in *Water Resources and Power*, and obtained 3 granted invention patents and 1 registered software copyright.

Selected Publications

- ENMP: Evolutionary Negative Module Pruning for Better LoRA Merging.
Anda Cao, Zhuo Gou, Yi Wang, Kaixuan Chen, Yu Wang, Can Wang, Mingli Song, Jie Song. ACL 2026.
- Rethinking Token Reduction for Large Vision-Language Models.
Yi Wang, Haofei Zhang, Qihan Huang, **Anda Cao**, Gongfan Fang, Wei Wang, Xuan Jin, et al. CVPR 2026.
- Vision Mamba Mender.
Jiacong Hu, **Anda Cao**, Zunlei Feng, Shengxuming Zhang, Yi Wang, Lingxiang Jia, et al. NeurIPS 2024.
- RS-SAM: Integrating Multi-Scale Information for Enhanced Remote Sensing Image Segmentation.
Enkai Zhang, Jingjing Liu, **Anda Cao**, Zhen Sun, Haofei Zhang, Huiqiong Wang, Li Sun, et al. ACCV 2024.

Honors and Awards

- Zhejiang University, Excellence in Academic and Practical Innovation for Graduates 2025.12
- 6th AI Application Competition for Power Dispatching, Second Prize 2024.12
- AFAC 2023 Financial Intelligence Challenge, Financial Document Anti-Tampering, 3rd Place 2023.08
- Zhejiang Sci-Tech University, Outstanding Graduate 2022.06
- Zhejiang Provincial Government Scholarship 2021.12
- ACM-ICPC Asia East Continent Final, Bronze Medal 2021.04
- ACM-ICPC Asia Regional Contest, Jinan Site, Silver Medal 2020.12
- China Collegiate Programming Contest, Changchun Site, Bronze Medal 2020.11
